

The spacers can be o-rings (as shown: -003 size) or they can be split lock washers as shown below (#3 Screw Size Split Lock Washers: 100 for \$1.14 from McMaster):

Zinc-Plated Steel Split Lock Washer
Number 3 Screw Size, 0.107" ID, 0.195" OD

 **Thick.**

Packs of 100 In stock
ADD TO ORDER \$1.14 per pack of 100
91102A715

1 added to your order 05/01/15.

Material	Zinc-Plated Steel
Screw Size	No. 3
ID	0.107"
OD	0.195"
Thickness	0.025"
RoHS	Compliant

Split lock washers prevent bolted joints from loosening under small amounts of vibration. As a screw is tightened, these washers are forced into a flat shape, which adds tension to your joint for a tight hold.
